

Clean & Protect Box

for Document Scanners

GLAS CLEANER

The special cleaner ensures streak-free cleaning of soiled glass and plastic surfaces of any document scanner. It is ideal for use for cleaning where rinsing with water is not possible.

Art No. 196120-DY, 250ml

COMPRESSED AIR SPRAY

The spray with practical spray tube is ideal for cleaning sensitive equipment and hard-to-reach areas of the scanner and removes dust and dirt. To achieve the best possible result, apply in short spray strokes.

Art No. 196500-DY, 100ml

PROTECT YOUR DOCUMENT SCANNER FROM CONTAMINATION.

The regular cleaning of a scanner is very important so that neither dust nor dirt can settle permanently and a trouble-free paper run can be guaranteed. The Dyanix Clean & Protect Box contains the appropriate tools to deliver a perfect scan result permanently.

ROLLER CLEANER

The roller cleaner is ideally suited for cleaning rubber rollers in scanners, printers and copiers. It removes residues of fine paper dust, ink and dirt from rubber rollers (feed rollers, time rollers), but does not damage the roller.

Art No. 196105-DY, 250ml

CLEANING WIPES AND COTTON SWABS

The wipes and sticks are ideal for cleaning or dabbing, for the precise application of liquids (cleaners) and the removal of dust and dirt.

Cleaning wipes: 20 items

Cotton swaps: 6 items
